PRINCETON.

1893.

PRINTED FROM LINOTYPE
BY THE
MUTUAL PRINTING CO.,
33 GOLD ST., NEW YORK.

For the customary memorial on the occasion of a decennial reunion, the members of the CLASS OF '83 have chosen to found a LIBRARY OF POLITICAL SCIENCE AND JURISPRUDENCE. For this memorial they have given about one thousand volumes and a substantial endowment for the perpetual increase of the collection. The books given are arranged with other books on the same subjects, including those purchased on the Elizabeth Foundation, and are indicated in the list by asterisks (*).

This whole collection, which numbers about three thousand (3,000) volumes, has been entirely rearranged according to a system of classification furnished by the professors of jurisprudence and economics, and framed on lines which they judged on the whole best suited to the work of the departments. This reorganization, from the working out of the new classification to the mailing of the printed lists, had to be done in less than one month, mainly by an already very busy force—a fact which may rouse charity for errors in this modest list.

A "Finding List" is technically unpretentious. The arbitrary short-title system which is found on the whole so practical, is, at best, only a servant to the regular longer-titled "Author" and "Subject" catalogues. This one is little more than a "Shelf List," and the present edition is to be regarded merely as "proof." It is printed by the linotype method, and the type-bars being owned by the library only a small edition has been printed, as corrected editions can be printed at any time at small expense. The method has certain limitations (e. g., there can be no accents on capital letters), but its advantages are decided. The chief of these is the fact that new bars can be made and inserted as readily as cards in a card catalogue. In this way proof editions for library use, printed on a galley press, can be kept up to date, at slight cost.

The official recognition of the very handsome memorial of the Class of '83 will come from the trustees, but it is proper for the librarian to express here his conviction that no memorial could have been more suitable and grateful. There are few things which can make so large a body of undergraduates and professors feel, not only admiration for a noble gift, but a positive sense of gratitude for the practical supply of their definite need, as this strengthening of a weak place in their apparatus does.
